SUMMARY

I am a Senior Product Designer with 5+ years designing websites, web apps and mobile apps for healthtech, fintech, e-commerce and AI products in Nigeria and Canada. I own work from idea to shipped product, build design systems that speed up handoff, and work close to the code with Webflow, HTML/CSS and GitHub.

EXPERIENCE

Senior Product Designer, OneHealthNG
Jan 2026 – Present · Lagos, Nigeria · Remote, full-time

- Built and scale a centralised design system (colour, type and re-themed Untitled UI components) shared by every product, speeding up design-to-development handoff.
- Lead design across OneHealthNG's website, online pharmacy, auto-refill and weight-loss programmes, the new OneHealth mobile app and the Pillfinda web dashboards.
- Partner with product and engineering leadership on roadmaps and feature priorities.
- Direct and review a junior designer on the Pillfinda mobile app, setting design standards and feedback loops.

Product Designer & Webflow Developer, OneHealthNG
Apr 2024 – Dec 2025 · Lagos, Nigeria · Remote, contract

- Improved UX on the OneWellness app, increasing engagement by 35%.
- Designed investor materials and the store and refill flows during a $100K funding round and NGN 1B in revenue.
- Designed and built a Webflow whitepaper site that increased traffic by 10%, plus four more microsites, including partnerships with Kuda and Imani.

Lead Product Designer, Reelcruit
Nov 2022 – May 2024 · Montréal, Canada · Remote, contract

- Designed all five sides of an AI hiring marketplace: website, candidate and employer dashboards, and two admin consoles.
- Recruiters found qualified candidates 25% faster, users spent 30% more time with job matches, and company revenue grew 20% while I led design.
- Mentored junior designers and ran design-to-development handoffs.

Product Designer, C-Bit Industries
Feb 2022 – May 2026 · Lagos, Nigeria · Remote, full-time

- Led UI/UX design for a merchant-focused e-commerce platform.
- Built scalable design systems to keep products consistent.
- Worked with marketing and engineering on high-impact features.

Product Designer, iWello
Nov 2021 – Mar 2024 · Lagos, Nigeria · Part-time; consultant in 2025

- Designed every version of a health platform for low-income Nigerians, from a telemedicine marketplace for patients, doctors and pharmacists to a NGN 2,000-a-month health subscription.
- Increased appointment bookings by 40 a week and cut no-shows by 10% with an automated booking tool.

SELECTED FREELANCE

- **Casha Business**: Business banking app with payroll and inventory, sole designer, 2026
- **QShelter**: Mortgage platform, co-lead designer for web, 2023
- **NaijaFXRates**: FX rates site redesign; 75% of traders said its alerts helped, 2023
- **Zygomed**: E-commerce store and mobile app, sole designer, 2023
